### SUTTER COUNTY WEB SITE WINS NATIONAL AWARD

Washoe County, NV, September 28, 2006 — The National Association of Government Webmasters (NAGW) awarded its Excellence Award for Design and Usability at its annual conference in Washoe County, NV to the Sutter County Web site. The Sutter County site was selected out of more than 50 entries from 22 states. A peer judging panel noted the site's ease of use and friendly design. One judge commented:

*"...All the basics are there and then some. A very well-organized, service-based structure..."*

The Sutter County site previously won a Pinnacle Award in 2005.

NAGW Pinnacle Awards recognize the highest scoring local government Web sites in a combination of three judging categories: Design and usability, Programming, and Strategic innovation. NAGW Excellence Awards are given to the highest scoring entries in each individual category.

Delphia Consulting ([www.delphiaconsulting.com](http://www.delphiaconsulting.com)) and Twelve Horses (<http://web.twelvehorses.com>) sponsored NAGW's 2006 awards ceremony.

**The National Association of Government Webmasters** was formed in 2005 as the first organization specifically for local government webmasters. Through annual conferences, and networking through [www.NAGW.org](http://www.NAGW.org), the organization promotes learning and collaboration, focusing on the unique needs and requirements of local government web sites.
